3D modelling SW

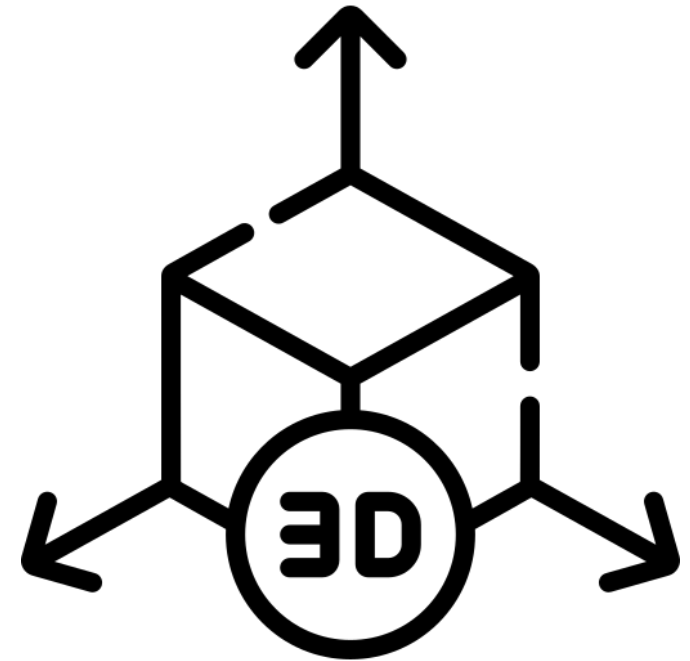

Offer an overview of main 3D modelling SW

❖ **1. Solidworks:**

<https://www.solidworks.com/it/support/community-download#no-back>

❖ **2. Fusion 360:** <https://www.autodesk.com/education/home>

❖ **3. Onshape:** <https://www.onshape.com/en/education/>

Modeling rudiments

- Functional modeling
- Sketches and constraints (rectangle)
- Fittings
- Tree of functions and elements
- Snap
- Concentric and offset circles
- Display windows (isometric view, Reference system)
- Extrusion feature
- Extruded cut and hole wizard
- Mirror
- Boolean difference
- Tolernaces
- 2D Technical drawing

Exercises
